1 About Me

I'm Sami Chamali, a passionate Computer Enthusiast! I love to occupy my time with developing and collaborating with AI companies and creating products and solutions for them! In my years of High School, I attended at least 2 competitions on average per year! Most of which I was offered internships and jobs by major companies... I am deeply interested in Software, Mechanical, and Computer Engineering, all of which I would love to include in my professional background!
